The coffee song

Frank Sinatra 194

By Bob Hilliard and Dick Miles 1946

Way down among Brazilians,
Coffee beans grow by the billions,
So they've got to find those extra
cups to fill.
They've got an awful lot of coffee in
Brazil.
You can't get cherry soda,
'Cause they've got to fill that quota,
And the way things are I'll bet they
never will.
They've got a zillion tons of coffee in
Brazil.
No tea or tomato juice,
You'll see no potato juice,
The planters down in Santos all say
"No, no, no!"
The politician's daughter,
Was accused of drinking water,
And was fined a great big 50-dollar
bill.
They've got an awful lot of coffee in
Brazil.
You date a girl and find out later,

She smells just like a percolator,
Her perfume was made right on the
grill.
Why they could percolate the ocean in
Brazil.
And when their ham and eggs need
savor,
Coffee ketchup gives 'em flavor,
Coffee pickles way outsell the dill.
Why they put coffee in the coffee in
Brazil.
No tea or tomato juice,
You'll see no potato juice,
The planters down in Santos all say
"No, no, no!"
So you lead to the local color,
Serving coffee with a cruller,
Dunking doesn't take a lot of skill.
They've got an awful lot of coffee,
An awful lot of coffee,
Man, they got a gang of coffee in
Brazil!

To create a simple homemade coffee creamer, you will need the following ingredients:

- 1 cup of milk
- 1 cup of heavy cream
(or half-and-half for a lighter option)
- 1/2 cup of sweetened condensed milk
(for sweetness and creaminess).

INSTRUCTIONS

Combine ingredients: in a medium saucepan, mix the milk, heavy cream, and sweetened condensed milk over low heat. Stir gently until well combined, but do not let it boil.

Add flavor: Once the base is warmed, you can add flavorings. A classic option is 1 teaspoon of vanilla extract. Feel free to experiment with other flavors like hazelnut,

almond, or even seasonal spices like cinnamon or pumpkin spice.

Cool and store: Remove the mixture from heat and let it cool to room temperature. Pour the creamer into a glass bottle or a mason jar, seal it tightly, and store it in the refrigerator.

Shake before use: Always give homemade creamer a good shake before using, as ingredients may settle over time.

VARIATIONS

Vanilla Bean: Use vanilla bean paste instead of extract for a richer flavor.

Dairy-Free: Substitute the milk and cream with coconut milk or almond milk for a dairy-free version.

Seasonal Flavors: Try adding peppermint extract for a holiday twist or chocolate syrup for a mocha flavor.
