Did you know that a tablespoon honey is enough to keep a person alive for 24 hours?

Did you know that one of the first coins in the world had the symbol of a bee?

The best way to eat honey is with a wooden spoon; if you can't find one, just use a plastic spoon.

Did you know honey contains a substance that helps the brain to function better?

Did you know that honey is one of the rare foods who on earth can alone sustain human life?

Did you know that bees have saved people who where hungry in Africa?

Did you know that propole is produced by bees and is one of the most powerful natural antibiotics?

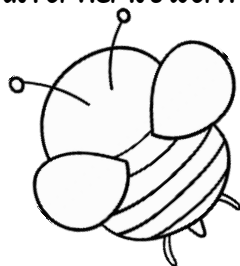

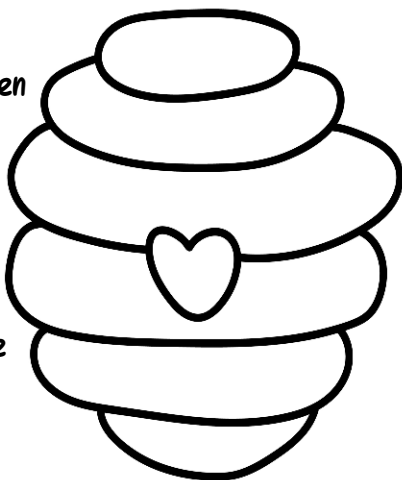

Did you know that honey has no expiration date?

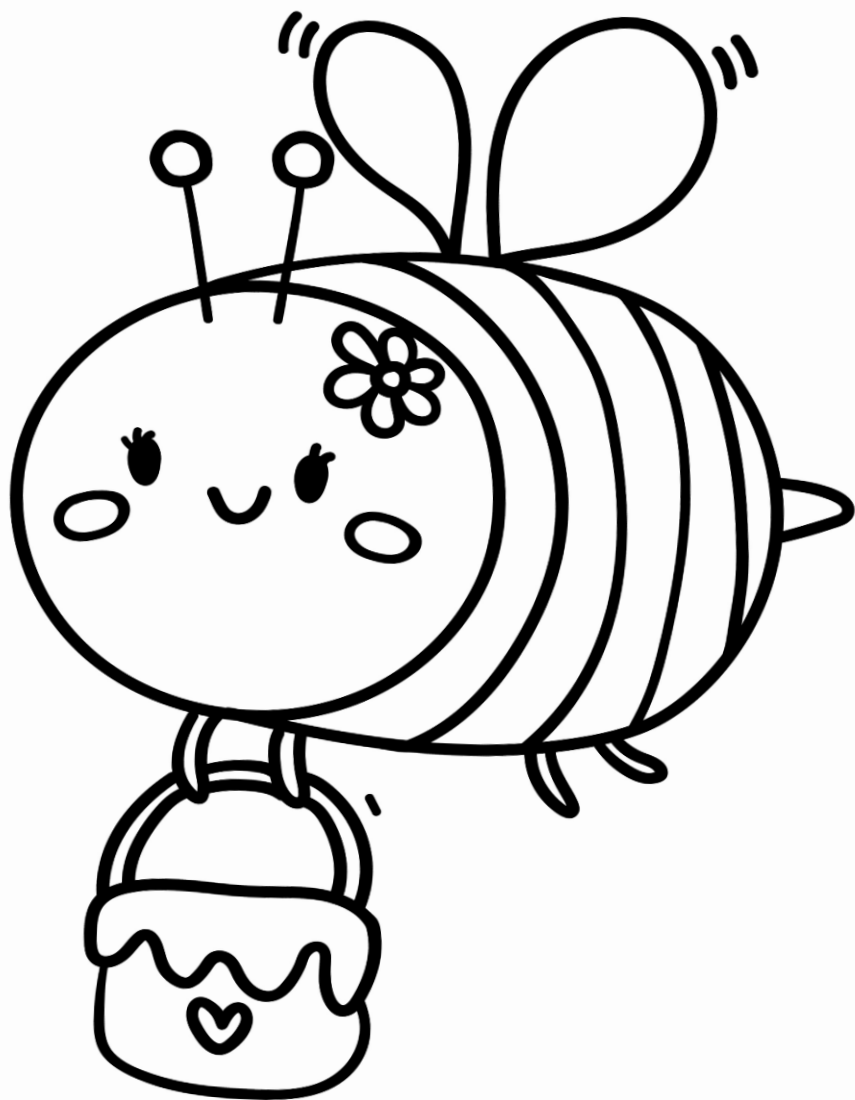

Did you know the bodies of the greatest emperors of the world buried in coffins of gold then covered in honey to avoid retraction?

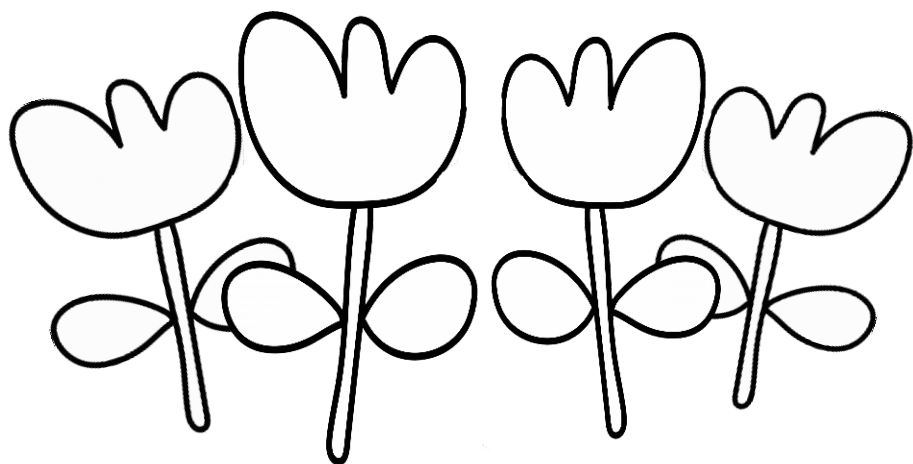

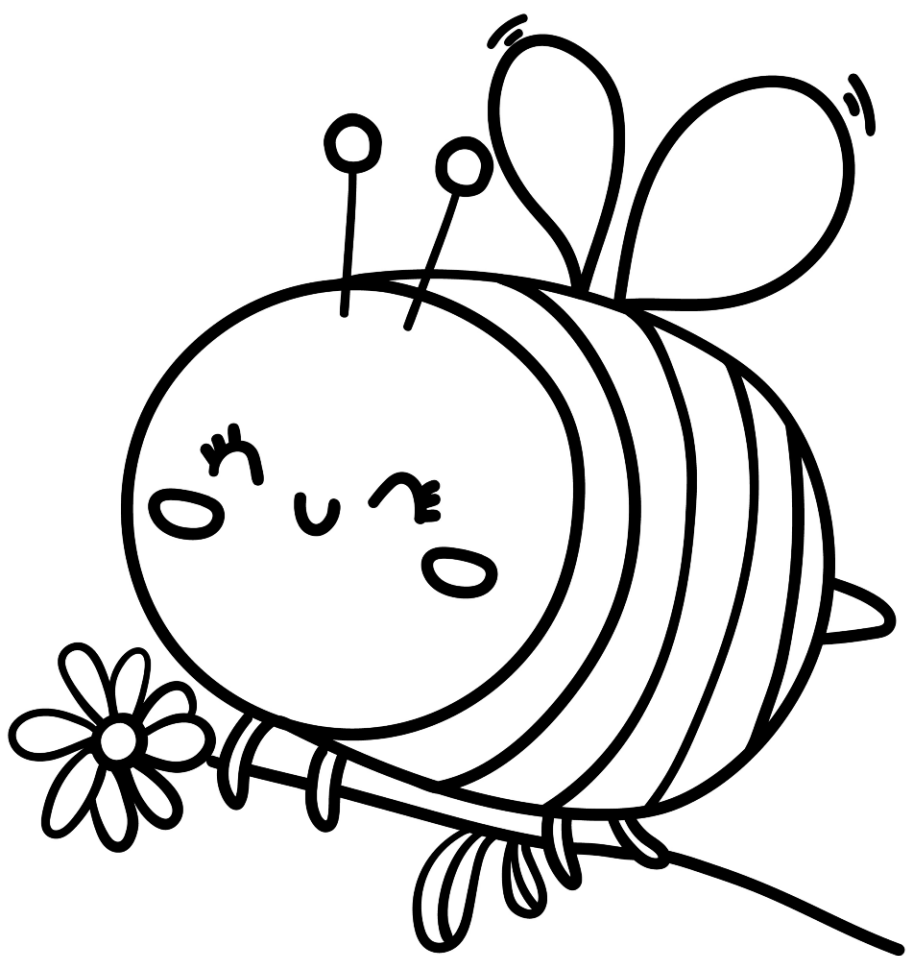

Did you know the term honeymoon (honey) comes from the fact that married couples consume honey for fertility after marriage?

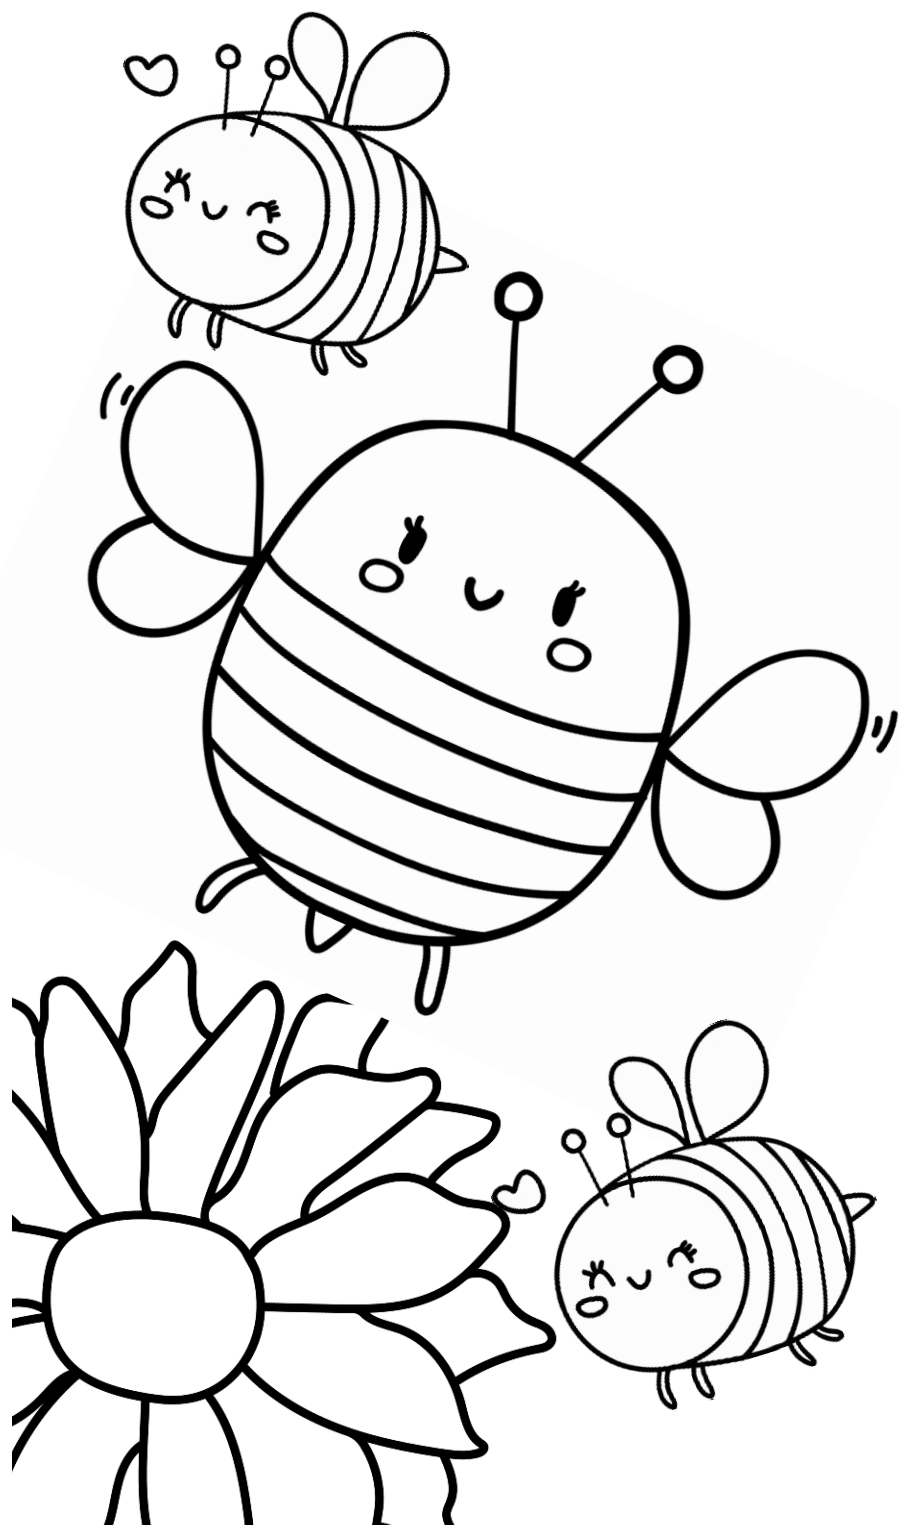

Did you know that a bee lives less than 40 days, visit at least 1000 flowers and produce less than one teaspoon of honey, but for her it's work of a lifetime.

Thank you beautiful bees..!
